KING NOT BELIEVED DEAD

New York, April 16.—According to the Russian and Finnish papers recently received here, Felix Gershuni, student of languages and arch-plotter of the Terrorist party in Russia, is said to have died recently in the United States. Leaders of the Russian colony of patriots in this city admit that Gershuni has been in this country for some time, but deny the reports that he is dead. They intimate that he has recently ventured to return to Europe on "important business."

Three years ago Gershuni was caught through the treachery of an associate, and, after lying a long time in prison at St. Petersburg, was sentenced to perpetual hard labor in eastern Siberia.

A few months after his arrival in the penal settlement, however, Gershuni made a sensational escape. Some of his fellow prisoners managed to conceal him in an empty coal barrel that was going with a load of other things on to Manchuria. Gershuni got safely away, and was next heard of in Tokio, whence he sent revolutionary manifestoes to his companions in St. Petersburg. From Japan Gershuni came to America, landing in San Francisco under the name of Felix Orski. Though his presence in this country was made known some time ago, his subsequent movements have remained a mystery and the story that he has left America for Europe is accepted as quite probable.

WATER MAIN BURSTS.

Emits Mighty Roar and Rips Up Asphalt on Street.

St. Louis, Mo., April 16.—The bursting of a thirty-six inch water main early Thursday tore a hole twelve feet deep and fifteen feet in diameter at the intersection of Herbert street and Rauschenback avenue, and spouting six feet in the air the flood ran west on Herbert street for two blocks, ripping up the asphalt like paper and ruining the street cellars in the vicinity of where flooded.

The flood invaded the section of the beautiful St. Louis park, depositing a coating of slime and mud. Pavements were torn up and converted into unsightly piles of bricks and debris. The main broke with a roar that alarmed the neighborhood.

BOTH PRINCIPALS HIT.

Attorneys Have a Shooting Affray in Driskill Hotel Corridor.

Austin, April 16.—A sensational shooting affray occurred Thursday in the corridor of the Driskill hotel in which Attorney John Dowell of Austin and Mason Williams, an attorney of San Antonio, were the participants. Thirteen shots were fired and both were hit, but neither fatally shot. Dowell was shot through the left leg near the groin, and Williams received a slight flesh wound in the abdomen. Williams was shot with buckshot and Dowell struck with a bullet from a revolver. The parties had a dispute over a court matter.

SAVINGS BANK CLOSES.

Depositors Had to Withdraw Deposits In Order to Exist.

Toledo, O., April 16.—The Dorr Street Savings bank, an institution situated in the factory district, and patronized principally by workmen and small tradesmen, has closed its doors. The trouble was due to the financial depression, which caused laborers to withdraw deposits for immediate use. The bank is capitalized at \$25,000 and has \$125,000 deposits assets to pay depositors in full.

NOT HIS FATHER.

Plaintiff in Assault Case Adopted Defendant in Infancy.

Fort Worth, April 16.—Theodore Schlicker, aged thirty-eight, charged with assaulting C. Schlicker aged sixty-two, learned at his trial that the plaintiff, with whom he has always lived, was not his father. The elder Schlicker said he adopted the defendant in infancy. The prisoner says he tried to prevent his father from beating his mother.

THREE MEN KILLED.

Four Others Seriously Burned by Explosion in a Mine.

Winnipeg, Man., April 16.—Three men were killed and four others seriously burned in an explosion in a mine at Cammore, Alberta. John Wilmott, the fire boss, was one of the men killed.

BRIDGES WASHED AWAY.

Many Million Feet of Logs Have Also Been Scattered.

Houston, April 16.—Bridges of the Texas and New Orleans and the Santa Fe roads over Pine Island bayou were washed away. The new county bridge at Voth, over the same stream, was destroyed. Many million feet of logs have been scattered.

High Water Stops Work.

Denison, April 16.—Owing to high water government work on Red river has been temporarily suspended.

COTTON MEN IN SESSION

Boston, Mass., April 16.—The eighty-fourth annual meeting of the National Association of Cotton Manufacturers opened in Huntington Hall, Massachusetts Institute of Technology, today for a two days' convention. The purpose of the association is the advancement of cotton interests, and it has always exerted influences in the direction of its commercial relations. Its primary work in matters pertaining to improvements of manufacture has always been a leading feature. The association has over 1,000 members throughout the United States and also in foreign countries.

GRAIN BUSINESS CHANGE

Mr. John Vick has purchased the feed and grain business of the Wilson Grain Co. effective yesterday. Mr. Vick will continue the business at the same stand for the present.

He is in position to manufacture feed stuff, and will install at his mill other new machinery for this purpose, enabling him to make very close prices on feed stuff and supply the wholesale trade.

The Wilson Grain Co. desires to thank one and all for the favors and patronage of the past, and bespeak the same for the new firm. Mr. W. S. Wilson Jr. has not announced his plans for the future.

SOMETHING STARTLING.

Text School Board May Have a Sensation Before It.

Austin, April 16.—Some sensational developments are expected when state school text book board meets early next month. A vigorous fight is being made against the adoption of primers which went to one of the companies, and it is stated that affidavits will be exhibited showing that this concern offered books for a much less price in Indiana. Other book companies have entered the contest and are filing sample copies of primers with officers of the board. The governor has not as yet published his required proclamation as to books that were adopted, and this is taken to indicate that he has received notice of contest. A proclamation has been agreed on, but it has not been made public, as required by law. It is understood a certain book company recently secured a certified copy of the proposed proclamation, the purpose of which has not been disclosed.

Assistant Attorney General Walthall has rendered an opinion to the tax assessor of Bexar county construing the anti-nepotism act. It appears that the tax assessor has a relative by marriage for deputy. The relation is so distant, being brought about by a step-sister, that it is not a violation of the law for this deputy to work in the office.

Postal Savings Banks Favored.

Washington, April 16.—Senate committee on postoffices and postroads voted to report favorably the postal savings bank bill drafted by a sub-committee. An amendment was adopted changing the name to postal depositories, which meets the objections of bankers.

Corn Greatly Damaged.

Denison, April 16.—Excessive rainfall has greatly damaged hundreds of acres of corn.

Lightning Disables Street Cars.

Dallas, April 16.—Lightning disabled two street cars.

SOUTHWEST TEXAS NOTES.

San Antonio, Texas, April 16.—According to the report of County Treasurer Walton, Bexar County enjoys the unique distinction of a cash balance on hand over and above all expenses of \$276,930.05.

Considerable interest is aroused in this part of Texas by the announcement at the government Experiment Farm just outside of this city, that the olive tree will grow in this country. A number of olive trees are growing on the government farm but as yet are not bearing in large quantities.

S. M. Tracy, special agent of the United States Department of Agriculture, was in this city on one of his periodical tours of the Southwest. He comes this time to investigate the results of experiments in the raising of para grass and guinea grass. He reports that the experiments in para grass have been very successful. On the famous King ranch, the largest ranch owned by a single person in America, para grass has yielded eighteen tons to the acre and is a very fine forage. It possesses the nutritive value and many of the qualities of alfalfa and yields even larger returns. The guinea grass, although yielding quite the proportion, is also a success, and Southwest Texas is the richer by two new forage crops.

In commenting on the presence of Attorney General Davidson of Texas in Washington, the Washington Times says: "Some day Davidson will come to the Senate." The Times takes the measure of the man from his record in prosecuting trust cases, his success before the higher courts and the fact that he is now in Washington attending to the duties of his office notwithstanding his opponents in Texas are waging a relentless warfare against him. The Times is entirely correct. His services to Texas are worthy of either the governorship or the senate. Just now, however, he is most needed in the attorney general's office. While the fight against trust interests is at its height under his direction his services should be retained because its bad policy to swap horses in mid-stream, if for no other reason.

MR. THOMAS H. MARTIN DEAD.

Recently Came From Wharton in Failing Health—Was Reared in Bryan—Funeral this Morning.

Mr. Thos. H. Martin died in this city yesterday morning at 9:45 o'clock, and his funeral will take place this morning at 8 o'clock, from the residence of his brother, Mr. W. S. Martin. Mr. Martin had been in failing health for some time and came back to Bryan about a month ago from Wharton, where he has resided for a number of years past. He appeared to be dispondent about his health, and all efforts on the part of members of the family to cheer him up seemed to be without effect. His early death was however, a shock to all, having come so soon, as he appeared to be feeling better than usual Wednesday night.

Mr. Martin was born at Port Sullivan in Milam county, and was a son of the late Mr. Robert B. Martin and wife, both now deceased. He came with his family to Bryan when very young and was raised here. He had lived in the dry goods business, the past sixteen years. Mr. Martin was 39 years, 5 months and 5 days old. He united with the Methodist church at the age of eighteen and was in character a christian gentleman, esteemed by all who knew him. He leaves two brothers and two sisters, Mr. W. S. Martin and Mrs. R. W. Downard of this city, Mr. Henry Martin of Liberty Hill and Mrs. J. W. Holden of Comanche. The Eagle extends sympathy to the bereaved family.

Our fish and fresh vegetable and fruit will be ready for delivery right early this morning. Howell & Newton, phones 23 and 150.

HON. CONE JOHNSON COMING.

Hon. Cone Johnson of Tyler, candidate for delegate at large to the Democratic National convention, will address the people of Brazos county at the Court House in Bryan on Monday afternoon, April 20th, 1908. Everybody invited to come out and hear him. (adv. 115.)

"Health Coffee" is really the closest imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoop of Racine, Wis. Not a grain of real coffee in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for coffee. No 20 or 30 minutes tedious boiling. "Made in a minute" says the doctor. Sold by J. M. Lawrence & Co. 115

CLOSED FOR REVIVAL.

The closing of business houses for the revival was practically unanimous including the saloons, and a great audience, which filled the Baptist church, gathered at the 11 o'clock service and heard what many consider the ablest sermon Evangelist Compton has preached during his stay here, his subject being "The Power of the Gospel." At the conclusion of the service there were four or five professions. Dr. Compton preached Wednesday night on "The Power of Choice."

Services as usual today and tonight. The closing agreement covers the hour for the morning service from 10:30 to 11:30 a. m.

ONE OF THE BEST.

In the coming of Hon. Cone Johnson to Bryan Monday afternoon, the people of this city and county will have the opportunity of hearing one of the foremost orators of the state, a man of clear and logical mind and capable of presenting the issues of the present campaign in a concise and forcible manner. Go out and hear him, regardless of your views, and you will find him one of "the tallest and ablest of democrats."

TRULY TURBULENT TIME.

New York State Democrats Had Stormy Session.

NEW WAY OF ELECTING

Central Committee Brought on Such a Scene of Disorder That It Resulted In Police Being Summoned to Make Delegates Resume Their Seats.

New York, April 16.—Amid scenes of turbulence and great confusion the state Democratic convention adjourned at 12:30 o'clock this morning.

After a bitter contest the convention unseated Senator McCarren and delegates from ten districts of Kings county, seated the McCabe delegates from Albany county, elected four delegates-at-large and alternates to national convention, headed by Judge A. B. Parker, and delegates from various congressional districts, chose presidential electors and elected a new state committee.

The scenes of disorder, which developed from the rejection of the McCarren delegates, were increased when a resolution was quite unexpectedly sprung under which members of the new state committee were chosen by the convention as a whole instead of each district electing its own members. This resolution was read amid so great hubbub that many delegates declared afterward they did not hear it or know what it was about. At the close of the roll call it was declared adopted by vote of 254 to 128.

At this announcement the convention became uproarious. Delegates poured from their seats into the aisles after name after name had been read, and there were shouts of "robbers," "thieves," "outrageous," and the officers of the convention were denounced in vigorous language. One hundred men rushed for the platform clamoring to be heard in protest and demanding the right to elect members of the committee in the usual fashion. Delegates seated on the platform attempted to stop the rush of those from the main body of the hall and a hand-to-hand clash seemed to be imminent. Hurry calls were sent for the police, who had left the hall after the unseating of the McCarren delegates.

Chairman Garmody vainly beat the table until the gavel was shattered. There was an altercation on the stage, during which Sergeant-at-Arms Waters was struck and knocked from the platform, carrying the reading desk with him.

Amid cries of "fraud" and "robbery" the clerk continued to read the names of the new state committeemen, which were attached to the resolution. The police returned to the hall and thrust the clamoring delegates back from the platform toward their seats and partially cleared the aisles.

Finally the resolution was declared adopted and in the midst of a great uproar the chairman put a motion to adjourn and it was declared carried.

After the convention Senator McCarren said: "The fight has just begun. We will carry this matter into the Denver convention and fight for the seating of our national convention delegates."

Chairman Connors said: "The people can judge whether McCarren got a fair deal or not. The vote of the convention on that score of 325 against 89 speaks for itself. McCarren's leadership in Brooklyn is inimical to the Democracy of the county and consequently to the state."

BRYAN SURPRISED.

Not Aware Until Thursday of Action of Michigan Committee.

Lansing, Mich., April 16.—Hon. William Jennings Bryan, who spoke here Wednesday night and was the central figure of the great Democratic celebration, did not learn until 2 o'clock Thursday morning that the Democratic state central committee had Wednesday afternoon refused to endorse his candidacy for the presidential nomination. In this connection he pointed out that the Minnesota state central committee had endorsed Governor Johnson.
